COMPACT DESIGN, HIGH SAFETY

The Colt CZ3 and Colt CZT excel in both active and passive safety. Our engineers have worked hard to provide you with all tools you need to avoid any incident and offer you maximum protection in case of emergency the same time. High tech electronics like standard ABS, Electronic Brakeforce Distribution (EBD) and the optional Mitsubishi Active Stability Control (MASC) including Mitsubishi Active Traction Control (MATC) help you keep the right trail and give you the support you wish in hazardous situations. Mitsubishi's Reinforced Impact Safety Evolution (RISE) safety cell and optional ISOFIX mounting points for compatible child seats give you that extra reassuring feeling. The Colt CZ3 and Colt CZT's safety equipment is of a high standard. Nevertheless we developed some extra safety accessories for you, just to be sure. That goes from front- or rear parking assistance to a child safety seat for the youngest passengers, available in several age categories.
